- Nexus Cup Bank (see page 8).
- Nexus Duo split waste stream for cans and bottles (see page 9).
- General Waste Flap Kit.
- Multi Bin Connector Kit.
- Oxo-Degradable Sacks.
- Woven Polypropylene Sack.
- Recycling Station (see page 17).

Dimensions

Width: 544mm
(width c/w one side pod: 677mm, width c/w two
Depth: side pods: 810mm)
Height: 397mm
Capacity: 100l 1007mm
Amount of A4 Paper: 30kg
Amount of 330ml Cans: 130
Amount of 500ml Plastic Bottles: 95

Weight: 12kg

Materials

Bin Body, Door, Lid and Apertures: Duratec™** material (contains 50% recycled material)
Sack Retention System: Durapol

Sack Retention System

The sack retentionbandcan be lifted up to allow light waste such as cans or plastic bottles to be removed without removing the door.

Secure Key-Lock for Confi dential Paper Unit

A keyedpush lock issituated at the front of the unit for ease of access. The plunger locates into the oval hole in the door to secure the unit (can be provided as an optional extra on paper, can, bottle and non-recyclable waste units).

BS 8470:2006
Support your waste management contractor's compliance with BS 8470:2006 - Code of Practice for the Secure Destruction of Confi dential Material.
"Confi dential material to be collected should remain protected from unauthorised access from the point of collection to complete destruction."

*Durapolmaterialisa polymer formulated towithstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol® material will not chip or rust, is easy to clean and never needs painting.
**Duratec™ material has been specially created for use in internal environments. In addition to its attractive appearance it offers a blend of toughness, rigidity and dimensional stability.

Paper Bin

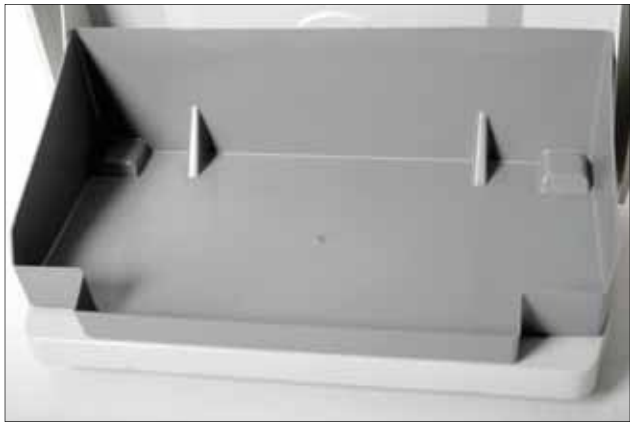

Thelarge100 litre capacity can hold up to 30kg of waste paper. (Frequent emptying is recommended to avoid accumulation of excessive weight.)

Scan to see how Nexus 100 has helped Actavis plc reduce their landfi ll costs.

Drip Tray

Positioned inthe base of the door, the drip tray will collect any waste liquid, which is deposited in the unit, preventing it from spilling out on to the fl oor. The drip tray can be easily removed for emptying and cleaning.

Rear Wheels

Nexus 100 can be supplied with two rear wheels, making the whole unit easy to manoeuvre.

Easy and Safe to Empty

Lift the lid to its open position, then pivot open the door. For lighter loads such as cans and plastic bottles simply lift the sack retention band up and remove the sack (as shown opposite). For heavier waste such as paper, the door can be removed from the unit and tilted onto the wheels attached to the base, ready for transporting the heavy waste a short distance to a collection area. With the door away from the unit, the sack can then be removed with minimal lifting.

Wheels are attached to the base of the door to aid easy emptying.

Nexus® 100

Recycling Bin Colour, Aperture & Graphic Options

Colour-coded apertures and clear graphics make Nexus 100 easily identifi able for effective use.
If you require other colour/aperture combinations than those illustrated below, please contact our sales offi ce on: 01253 600410.

Select your choice of colour and aperture

Standard Graphic Options

Standard Graphic Options and Text

Recycle Now Graphic Options are also available in these colours

Grey | Blue | Red | Pastel Green | Blue | Black | Lime Green

Optional Extras

Sign Kit

Asignkit is available, which is fi tted to the rear of the unit to provide additional signage at eye level and will help promote the recycling message. The clear sign front pivots to allow either a standard sign or your own A4 sign to be inserted and replaced when required.

A combined folding sign and wheel kit is available to allow Nexus 100 to be easily moved.

Standard Graphic Options for Sign Kits

Recycle Now Graphics Options for Sign Kits

Mixed Recyclables (Lime Green or Orange).

As well as the standard recycling logo options shown, we are also able to offer a wider range of Recycle Now Graphics, to show your company's commitment to helping Britain become a recycling nation.

General Waste Flap

AGeneral Waste Flap is available asan optional extra, to hide any unsightly waste and help contain any odours from within the bin. Simply lift the fl ap using the moulded-in fi nger grip. Available in Black and Mid Grey.

Side Pods

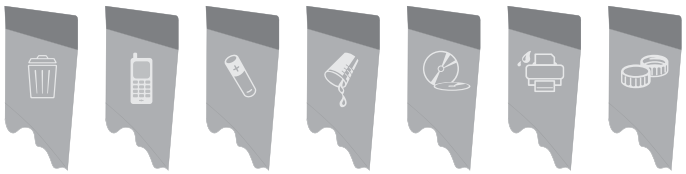

An additional 8ltr side pod is available on one or both sides of the Nexus 100 unit. This can be either an 8ltr reservoir for the collection of waste liquids from cans or bottles before depositing in the unit, an 8ltr waste pod for the collection of small non-recyclable items, or an additional recycling bin for items such as CDs and DVDs, mobile phones or bottle tops. A standard range of graphics are available and the trim moulding on the pod is available in Red, Orange, Yellow, Coffee and Mid Grey.

Reservoir Funnel & Trim Colours

Standard Side Pod Graphic Options

Examples only - any logo and trim colour options can be attached to all Nexus 100 models.

Recycle Now Colour Options for Side Pod

It is recommended that grey side pod trims are used when Recycle Now coloured side pod logos are required.

Nexus® 100 Cup Bank

TheNexus 100 Cup Bank is a stylishly designed unit to collect used drinks cups for recycling and store wasteliquidseparately. The Nexus 100 Cup Bank co-ordinates with the Nexus 100 units to create a complete range of recycling bins for any environment.

Thefour cup apertures on top ofthe unit accept cups up to 98mm diameter, therefore allowing the collection of the majority of sizes of disposable cups. The unique stacker moulding on the inside of the door and body will collect the cups neatly and compactly within a clear plastic sack. Nexus 100 Cup Bank is supplied with an 8ltr reservoir side pod as standard, to collect waste liquid prior to cup disposal.

Standard Graphic Option

Recycle Now Graphic Option

(Additional side pod available as optional extra)

Recycled Material

Specifi cations

Design Features

- 4x 98mm Cup Apertures.
- 8ltr Side Pod Reservoir.
- Removable Reservoir Funnel Moulding.
- Split Stacking Tubes.
- Sack Retention System.
- Pivoting Lid and Lid Stay.
- Removable Door.
- Heavy Duty Wheels on Door.
- Drip Tray.
- Non Marking Durapol®* material Feet.
- Standard Recycling Logo or Recycle Now Graphic (to co-ordinate with other Recycle Now bins).

Optional Extras

- Sign Kit.
- Extra Reservoir Side Pod or Waste Bin Side Pod.
- 76mm diameter Cup Tubes – helps prevent cross contamination of vending cups for recycling.
- Multi Bin Connector Kit.

Dimensions

Width: 677mm (width c/w two side pods: 810mm)
Depth: 397mm
Height: 1007mm
Capacity: 100ltr
Amount of cups:
Ø 70 x 90mm plastic cups: 152 per tube = 608 total
Ø 88 x 110mm wax paper cups: 80 per tube = 320 total
Weight: 17.5kg

Materials

Bin Body, Door, Lid and Apertures: Duratec™** material (contains 50% recycled material)
Sack Retention System and Stacking Tubes: Durapol

Colours

Bin Door & Lid: Pastel Grey.
Bin Body & Side Pod: Mid Grey.
Aperture and Side Pod Trim: Coffee.

8ltr Reservoir and Funnel Moulding

The 8ltr reservoir pod is attached to the right hand side of the unit as standard. The reservoir funnel moulding is specially designed to prevent splash back and is removable to allow access to the reservoir. A max level indicator shows when the reservoir requires emptying.

A spout on the reservoir allows the contents to be poured out simply and with a large opening the reservoir can be easily cleaned.

Sack Retention System

Internally the stacking tubes are split, with one half attached to the door and the other half attached to the unit body, to allow a sack to be inserted simply.
The door then pivots back to clamp the sack within the stacker tubes and is held in place with the sack retention lugs.

Drip Tray

Positioned in the base of the door, the drip tray will collect any waste liquid which is deposited in the unit, preventing it from spilling out on to the fl oor. The drip tray can be removed for emptying and cleaning.

*Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol® material will not chip or rust, is easy to clean and never needs painting.
**Duratec™ material has been specially created for use in internal environments. In addition to its attractive appearance it offers a blend of toughness, rigidity and dimensional stability.

Easy to Empty

Liftthe lid to its open position, and then pivot open the door. Remove the sack and its contents of neatly stacked cups for disposal. The door can also be completely removed from the unit for cleaning or the removal and cleaning of the drip tray. The Reservoir Side Pod Lid moulding is removed by lifting at the fi nger grip, the reservoir can then be lifted out using the handle and easily carried to pour away its contents.

Optional Extras

Additional Side Pods

An additional 8ltr side pod is available on the left side of the Nexus 100 Cup Bank. This can be an extra 8ltr reservoir for the collection of waste liquids or an 8ltr waste pod. A standard range of graphics are available and the trim moulding on the pod is available in Coffee. The additional reservoir provides a 16ltr capacity for high volume areas. The 8ltr waste pod is ideal for the collection of teabags or stirrers etc.

Nexus® 50 Recycling Bin

Thesleek, contemporary designof the Nexus 50 units will complement any environment, helping to encourage theefficient collection and segregation of recyclable waste.

The units provide a variety of siting options, including siting back-to-back, in a row or as a bank of four.

Recycled Material

Holds 18kg of Waste Paper

The compact units havea deceptively large 50 litre capacity. The confi dential and paper units have an aperture which conceals the contents and allows paper to be stacked as it is placed in the bin.
This enables the bin to hold up to 18kg of waste paper!

The rectangular shape of the bin and sloped aperture allows over 3000 sheets of paper to fi t neatly into Nexus 50.

“Confi dential material to be collected should remain protected from unauthorised access from the point of collection to complete destruction.”

Easy to Empty, Easy to Clean

Nexus 50 hasa front-opening, removable door. This allows easy access to the contents and reduces manual handling problems during emptying as minimal lifting is required. The unit is fi tted with a neat sack retention system, which accepts various sizes of sack from 14” to 18” diameter (356mm to 458mm diameter), to cater for different requirements. Manufactured from self-coloured Duratec material. The smooth interior and exterior contours allow easy cleaning and add to the attractive, modern appearance of Nexus 50.

*Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol® material will not chip or rust, is easy to clean and never needs painting.

Easy to Empty, Easy to Clean

The large, front-opening, removable door allows thorough cleaning and minimises the need to lift sacks during emptying, helping to reduce manual handling concerns. A neat sack retention system keeps the sack in place within the bin during use. A new, reusable woven polypropylene liner is now available which is ideal for collecting heavy waste including glass and paper.

The units are available with optional rear wheels and a handle to allow easy movement of the bin when full.

Putting Landfill on Ice

The National IceCentre in Nottingham is Britain's first twin Olympic-sized rink in the UK. The facility includes the Nottingham Arena, and the main rink can seat 10,000 spectators. The centre is home to the Nottingham Panthers ice hockey team, and was offi cially opened by Jayne Torvill in April 2000.

The Ice Centre recently purchased six banks of Nexus 140 Recycling Bins for the collection of plastics and general waste. The units are located in public concourses, and have already increased the centre's recycling rate by a signifi cant amount.

Lee Chadburn, Facilities Manager, said:

" Our focusat The National Ice Centre/Capital FM Arena has recently concentrated on increasing the quantities of recyclable of house' separation. Our next challenge was to attempt to engage the public attending the venue for an event to separate general waste from plastic (we go through over 300,000 plastic pint containers a year).

"The recycling container we chose had to look good, be of a high quality, be obvious which bin to use, and be easy for staff to empty and replenish quickly. After consulting with , we chose the Nexus 140. We are very happy with the fi nal product and the effect this has had on the public separating waste on our behalf for recycling."

Junk Mail Recycling in Richmond, USA

Oakland Chase CommunityLiving offers luxury apartment rentalsin a woodland setting just fi ve minutes from downtown Richmond, USA.

Like many Americans, Oakland Chase residents regularly receive junk mail. The piles of paper generated by unwanted mail has a huge impact on the environment - according to 41pounds.org, the average American receives 41 pounds of credit card applications, catalogues, coupon books and more every year - and 44% of it is never even opened.

Oakland Chase purchased a Nexus® 140 Recycling Bin from to help combat the problem. The container holds 140 litres of paper - and features a lock so sensitive information can't fall into the wrong hands.

Oakland Chase are happy with the Nexus 140, which has provided a simple but effective service for the residents.

Recycling Station

Recycling Station is a robust and durable stand complete with clearly identifi able signage to help create a multiple stream recycling point.

Specifi cations

Nexus® Shuttle

Food Waste Recycling Bin

Nexus Shuttle is a dedicated food waste recycling bin ideal for use in commercial kitchens, canteens, cafes and any other areas where food is prepared and/or consumed. Available with a solid liner or a sack retention system, Nexus Shuttle offers fl exibility for the different collection methods of waste.

Nexus Shuttle is a robust unit that will withstand knocks when in service. The smooth surfaces ensure that it is easy to clean and that there are no areas for germs to harbour. With a slimline design it takes up minimal space and the ergonomic height of the unit means it can be stored under worktops when not in use.

The foot pedal operated lid enables a hands free operation to comply with Environmental Health Standards and provides ease and speed of disposing food waste.

Solid Liner Model

Sack Retention Model

Specifi cations

Design Features

- Allows for different methods of collecting food waste.
- Quick and easy to empty – reduces manual handling problems.
- Manufactured from Durapol®* material, offering exceptional strength and durability.
- Smooth contours ensure there are no dirt traps and allow for easy cleaning and disinfecting.
- Lid overlaps the bin body to help contain any odours from within the bin.
- Anti-slip rubber feet.
- Lid override mechanism allows the lid to be propped open during busy shifts.
- Robust stainless steel hinge rod and mechanism.
- Lid stay mechanism enables quick and easy access for cleaning and emptying.
- Slow closing lid mechanism ensures the lid closes with minimal sound.

Solid Liner Model

Design Features

- Large 60 litres capacity liner.
- Liner lid seals the liner and ensures waste is contained until emptying.
- Liners can be stacked for ease of storage and transportation.
- Curved base and smooth surfaces offer an easy to clean hygienic design.
- Moulded liner handles provide a comfortable grip for the user.
- Liner wheels allow the unit to be easily manoeuvred.

Sack Retention Model

Design Features

- Corn starch sacks available in 50 litres and 80 litres.
- Capacity can be reduced to 30 litres and/or 40 litres.
- Quick and easy to empty/replace the sack.
- Sack retention bands hold the sack neatly in place.
- Removable sack support shelf.
- A sack retaining bar protects the sack and helps to contain it within the bin body.

Optional Extras

- Recessed Food Waste Graphic.
- A4 Sign Kit.
- Corn Starch Sacks.
- Bungee Cord (Solid Liner Model only).
- Available as a hand operated model for other waste stream collection.

Envoy™ Duo Recycling Bin

Can be personalised to meet your requirements (examples below)

Recycle Now Graphic Options for base and lid

Personalisation

Tohelpmaintain a high profi le, many organisations are benefi ting from our special product personalisation service. Most recycling bins can be personalised with your name, logo or message to create a stylish and effective promotional medium. For more information please telephone 01253 600410.

Envoy Confi gurations

Theunique D-shape of Envoy recycling bins offers the choice of siting them fl ush against walls and surfaces or back-to-back to form a mini recycling centre. This option makes Envoy an extremely versatile choice for recycling collection.

Envoy™ Cup Bank

Envoy Cup Bankisapurpose-designed, stylish unit to collect used drinks cups for recycling and store waste liquid separately. The Envoy Cup Bank co-ordinates with Envoy units to create a range of recycling bins for any environment. A cup stacking liner enables up to 700 cups to be neatly stacked in a single sack whilst in the cup bank. Cups remain stacked even during emptying, maintaining a clean and hygienic emptying procedure.

Easy to Use – How the cup bank works

The waste liquid is poured into the integral funnel, which runs directly into the reservoir unit contained within the cup bank. The empty plastic cups can then be dropped into one of the fi ve cup disposal apertures. Envoy Cup Bank is at a user-friendly height therefore minimal bending/stooping is required. The easy to use apertures make the cup bank a clean and easy way to collect liquid and cups. Envoy Cup Bank can accommodate more than one user at a time.

Specifi cations

Dimensions

Width: 540mm
Depth: 375mm
Height: 870mm
Weight (bank with empty reservoir unit): 8.2kg
Weight (bank with full reservoir unit): 17.2kg
Bank Capacity: 110ltr
Reservoir Capacity: 9ltr

Materials

BinBody andLid: Durapol®* material
Reservoir: Translucent Durapol

Colours

Millstone,Red, Deep Green, Dark Blue, Black (contains recycled material).

Easy to Empty

EnvoyCup Bankwith cup stacking liner has a very easy emptying procedure which can be carried out by one person.

Remove the lid and lift the plastic sack out of the cup bank.

Remove the reservoir unit located at the back of the cup bank for emptying. Re-position the reservoir unit against the back wall of the cup bank.

Place a new sack in the cup bank. The sack fi ts inside the liner and wraps over the top, within the bank. Replace the lid. The aperture holes help to hold the sack in place.

Nexus™ 2.5 Desktop Recycling Bin

Nexus® City 240 & Nexus® City 140

NexusCity 240 is a robust,attractive recycling bin. The unit features a soft-close aperture fl ap that keeps vermin out and odours in. Nexus City 240 is ideal for use particularly where large volumes of food waste are generated. Nexus City 140 offers all the great features of the Nexus City 240 in a smaller footprint. The 140-litre unit is designed to suit areas restricted by space and offers a solution to those concerned with manual handling issues.

Specifi cations

Design Features

- Houses a240 or 140 litre wheeled container.
- Manufactured from robust Durapol®* material.
- Curved sloping hood prevents waste being left on top of the bin.
- Very robust, large handled aperture fl ap, with a durable stainless steel hinge.
- Aperture fl ap has a soft close mechanism to ensure lid always closes with minimal sound after opening and minimises risk of vermin entering housing.
- Aperture fl ap shut off creates a seal to help keep odours contained.
- Aperture size is large enough to allow easy disposal of food waste items, but small enough to minimise contamination.
- Graphics help to encourage correct usage.
- Smooth surfaces, both internally and externally for ease of cleaning.
- Features a double skinned 5-point interlocking slam shut door.
- Base ramp aids insertion/removal of the wheeled container.
- Wheeled container location points ensure the container is sited correctly. (Nexus City 240 only)

Optional Extras

- Interchangeable A3 poster frame kit.
- Aperture fl ap graphic personalisation.
- Choice of ground fi xings.
- Internal ballast.
- FireSafe™ Automatic Suppression Device (Nexus City 240 only).

Height: 1177mm
Weight c/w steel liners: 51kg
Weight c/w Durapol®* material liners: 46kg
Bin volume: 2 x 136 litres
Liner capacity: 2 x 100 litres

Material

BinBodyand Door: Durapol

Colours

Black(contains recycled material), Anthracite Grey.

Twin Door Opening System

With a twin dooropening system and separate body compartments, Nexus 200 allows easy and quick access to both liners whilst minimising cross contamination between them.

Secure 3-point Locking System

The unique lift and lock mechanism engages the door with the bin body at three separate points, to provide a highly secure, vandal-resistant locking system. The door rises and self-returns to the locked position with a simple slam lock operation.

*Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol® material will not chip or rust, is easy to clean and never needs painting.

Minimises cleaning insidethe

bin as the extended aperture ledge ensures that litter will fall directly in to the liner.

Interchangeable A3 Poster Frame Kit

Theeasy to personalise A3 poster framekitiscolourmatched to the Recycle Now Graphics for added impact.

Also available in Orange for mixed recyclables

Optional Extras

Ashtray

Cigarette ashtray with a 5ltr liner in Gun Metal Grey or Gold colour.

Aperture Blanking Panel

Ideal for use when the bin needs to be sealed from public use temporarily.

Sack Retention

An elastic sack retention belt securely holds the sack inside the liner.

Base Tray

Provides a smooth base for easy cleaning

FireSafe™ Automatic Suppression Device (600g)

FireSafe automatic fi re suppression device is fi tted within the hood of the bin. Should a fi re break out inside the bin the device is activated. FireSafe is an effective low cost auxiliary device and must never replace primary fi re prevention measures. A regular inspection/maintenance programme should be introduced to ensure the device is in working condition or has discharged and therefore needs replacing.

Nexus® 360 Outdoor Recycling Bin

Theaesthetically designed Nexus 360recycling bin housing is ideal for waste collection in areas where ahigh volume of recyclable litter iscreated. This instantly recognisable recycling housing is extremely robust with a unique 5-point interlocking door.

Specifi cations

Design Features

- Houses a 240litre or 360 litre wheeled container.
- Features a double skinned 5-point interlocking slam shut door.
- Curved sloping body and hood prevents littering.
- Integrally moulded ridges deter fl y-posting and graffi ti.
- Available with colour-coded apertures and clear Recycle Now Graphics.
- Extended aperture ledge helps to ensure litter enters the liner, preventing spillage between the liner and the bin.
- Base ramp aids insertion/removal of the wheeled container.
- Includesan A3 poster frame with Recycle Now Graphics.

Optional Extras

• FireSafe™ Automatic Suppression Device. • Choice of Ground Fixing Options.
• SideConnecting Kit (2 bins).

Dimensions

Width: 835mm

Double Skinned Door & Concealed Knuckle Hinge

The strong androbustdouble skinned door has concealed hinges for added durability.

Secure 5-point Locking System

The unique lift and lock mechanism engages the door with the bin body at fi ve separate points, to provide a highly secure, vandal-resistant locking system. The door rises and self-returns to the locked position with a simple slam lock operation.

Siting Recommendations

Werecommend thatariskassessment is undertaken to identify an appropriate location for your recycling units. In order to reduce risk, some organisations decide to place the units a minimum of 5 metres away from buildings.Any potential risk can be further reduced by maintaining a regime of regularly emptying the unit. You may also wish to consider installing a FireSafe.

*Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol® material will not chip or rust, is easy to clean and never needs painting.

FireSafe automatic fi re suppression device is fi tted within the hood of the bin. Should a fi re break out inside the bin the device is activated. FireSafe is an effective low cost auxiliary device and must never replace primary fi re prevention measures. A regular inspection/maintenance programme should be introduced to ensure the device is in working condition or has discharged and therefore needs replacing.

Aperture Shelf

Minimises cleaning inside the bin as the aperture shelf ensures that litter will fall directly in to the liner.

Interchangeable A3 Poster Frame Kit

Theeasy to personalise A3posterframe kit iscolour matched to the Recycle Now Graphics for added impact.

Anti Littering Feature

Multiple units can besited together as a bank of recycling housings without litter being deposited between the units.

Modus™ Housing

A high capacity recycling bin housing, which securely contains a wheeled bin in a tidy manner. Modus creates a focal recycling point, ideal for areas such as housing developments, bring sites, parks and also for commercial use. Modus transforms any old/unsightly recycling containers into an attractive recycling centre.

Specifi cations

Design Features

•Choice of Modus 770 which can house a 600 litre, 660 litre or 770 litre wheeled bin or Modus 1280 which can house a 1100 litre or 1280 litre wheeled bin.
• Vandalex®+ material frame provides exceptional strength and is vandal and weather resistant.
• Extremely robust Ecoboard™ panelling is constructed from 100% recycled material.
• Recycling apertures and clear Recycle Now graphics help to encourage recycling.
• Durapol®* material hood encloses the wheeled bin inside the unit and provides security and weather protection.
• Hood peak provides extra weather protection to the apertures.
• Chute behind the aperture ensures that litter always enters the wheeled bin.
• Front door opening design with door stay feature provides easy access to the wheeled bin inside.
• Features a 3-point locking system.
• The door features a handle and stainless steel hinge.
• An adjustable door wheel enables easy opening of the door and levels the door on uneven surfaces.
• Base skirting provides a guard around the base of the housing, to minimise the risk of pests entering the housing and also conceal the door wheel.
•Supplied fully assembled.

Optional Extras

• FoodWasteAperture and Chute.
• Blanking Aperture – for secure storage of equipment.
• Aperture Brushes (round aperture only – glass recycling). • Wing Lock.
• FireSafe™ Automatic Suppression Device.
• Personalisation.

Aperture Panels and Recycle Now Graphic Options

Siting Recommendations for Modus and Visage
For Modus andVisage, werecommend that a risk assessment is undertaken to identify an appropriate location for your recycling units.
In order to reduce risk, some organisations decide to place the units a minimum of 5 metres awayfrom buildings. Any potential risk can be further reduced by maintaining a regime of regularly emptying the unit.
Youmay also wish to consider installing a FireSafe on Modus.

*Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure.
Durapol® material will not chip or rust, is easy to clean and never needs painting.
Vandalex® material is an aluminium alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodised fi nish will not rust, is easy to clean and never needs painting.

Modus™ Housings Headline Festival

UK's ModusRecyclingHousings andVisage™ Screen System made a big impression at the Edinburgh Festival.

The largest annual cultural event in the world, the Edinburgh Festival comprises dozens of independent programmes of theatre, comedy, dance, music and fi lm taking place in the city simultaneously. Throughout the month of August, thousands of performers and millions of visitors descend on the historic city to celebrate the arts.

's role in the 2013 festival began more than two years previous when representatives of Edinburgh City Council visited our head offi ce in Blackpool to learn more about the Modus Recycling Housing. The Council ordered two units with fully customised wrap-around graphics to place in parks in the city as a trial.

The success of the Modus Housings attracted the attention of the Council's Chief Executive, and for the 2013 Festival, Edinburgh purchased a number of Modus and Visage units (in consultation with our Scotland representative) for use in Princes Street Gardens - one of the busiest parks in the city, and a popular lunch spot for tourists - which sees an enormous amount of litter generated every day.

Edinburgh's units were extensively customised with high-resolution graphics, showing photographs of Edinburgh in days gone by. Modus and Visage have been a big hit with the public - we've even spotted tourists posing for photos next to them!

Visage™ Screen System

The Visage Screen System is ideal for commercial use, housing developments, bring sites, parks and open spaces, to conceal recycling containers in areas where large capacity is high priority.

The Visage Screen System creates a secure, aesthetically pleasing recycling centre and large polycarbonate graphics can be added to encourage recycling.

The modular construction of the Visage Screen System allows units to be built up to form two sided, three sided and four sided (complete with door) screens.

Specifications

Design Features

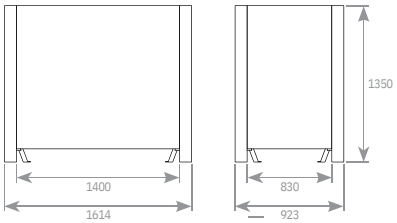

- Units can screen 600 litre, 660 litre, 1100 litre or 1280 litre wheeled bins.
- Low panels provide easy access to open the lid of the wheeled bin behind the screen.
- Vandalex®+ material frame provides exceptional strength and is vandal and weather resistant.
- Extremely robust Ecoboard™ panelling is constructed from 100% recycled material.
- An adjustable door wheel enables easy opening of the door and levels the door on uneven surfaces (four sided screen only).
- The door features a Tri-Lock, handle and stainless steel hinge (foursided screen only).

Optional Extras

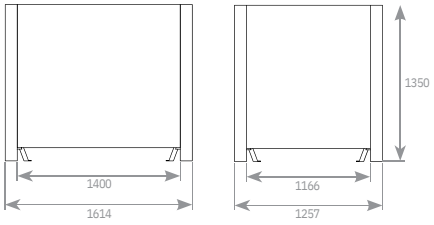

- PolycarbonateRecycle Now Graphics Kit.
- Base Skirting.
- Wing Lock (four sided screen only).
- Joining Vandalex Extrusion (for alternative screen layouts).
- Personalisation.

Colours

Millstone, Black.

Gemini is a multi-purpose, twin-liner recycling bin, which is ideal for use on streets and in town centres, where there is a need for the collection of more than one waste stream. The narrow footprint of Gemini Recycling Bin means that pedestrian fl ow will not be disturbed, but provision for waste collection is still highly noticeable.

Aperture Panels and Recycle Now Graphics

Clear Glass (Green on White), Mixed Glass (Green), Newspapers & Magazines (Blue), Cans (Red, Light Grey, White, Green), Plastic Bottles (Red, Light Grey, White, Green), General Waste (Black on White), Mixed Recyclables (Lime Green or Orange).

Optional Extra - Hood Plaques

Grampian™

Outdoor Recycling Bin Housing

Specifi cations

Design Features

- Choice of fi ve liner options:-
  240ltr sack retention system, Two x 65ltr zinc-coated steel liners, Two x 90ltr moulded plastic liners, 120ltr wheeled container, 140ltr wheeled container.
- Twin-walled moulded unit.
- Strong knuckle-hinge door.
- Two-point locking system door.
- Stainless steel lock components – square key to open, slam to lock.
- Ground fi xings for existing suitable concrete surfaces.
- Matching coloured banding.
- Choice of Aperture Panels and Recycle Now Graphics on a polycarbonate plaque.

Optional Extras

- Firexpire FireExtinguishing Device.
- A3 Poster Frame, for laminated A3 sheet (one or two).
- Internal Divider (The option of two liners means two waste streams can be segregated within the same housing).
- Choice of Ground Fixing Options.

Dimensions

Siting Recommendations
We recommend thatarisk assessment is undertaken to identify an appropriate location for your recycling units. In order to reduce risk, some organisations decide to place the units a minimum of 5 metres away from buildings. Any potential risk can be further reduced by maintaining a regime of regularly emptying the unit.

Grampian Recycling Bin Housing is ideal for waste collection in areas where a high volume of recyclable litter is created. It is extremely robust and is twin-walled with a strong knuckle-hinge door. Lock components are in stainless steel and the locking mechanism is a secure two-point system, with a key-to-open, slam-to-lock action.

Clearly identifi able graphics and wording help encourage use

Aperture panel/banding colours:	Black, Blue, Green, Grey, Red, White	
Aperture Shape:	Two x 90mm diameter holes 320 x 30mm slot	One x 90mm diameter hole 320 x 90mm slot

Any coloured panel can be customised with your own recycling message. (Subject toa minimum order quantity.) Please phone to discuss your personal requirements.
