K40 series has been developed
to enhance the seating experience
through ongoing research and
development by Krede.
Specifically, the K40 is designed
to provide natural support
to the waist, with the seatrest
achieving the optimal
thickness and hardness.
The K40 series, a complete
product of simple and
minimal design, offers a great
pleasure and satisfaction
in the experience of "sitting."

2025 new task chair
K40 series

K10 is ergonomically designed to satisfy various postures and body conditions of various users regardless of region, climate, race and culture. Also, the various functions contained in various parts of K10 minimize the fatigue of neck, waist and knees that the users could feel during long time sitting.

K10 series

K20 is characterized as a mini-
malist by its simple design,
but a very smart chair having its
minimum options an office chair
should have, the Weight Balance
Tilt that automatically adjusts
the back/seat tilting tension in
response to the weight of users,
the refined style and the various
color options of back & seat.

K20 series

Imagine the most comfortable things
that make you feel cozy.
Such as petting a fluffy cat or
the fragrant scent of just-brewed coffee.
Like those moments, the **K25** is the task
chair that provides comfort.
It is an enhanced version of K20,
offering more practical functions.
In addition to the advantages of K20,
there is an optional headrest and lumbar support.
We hope you'll experience full relaxation
with our **K25**.

2025 new task chair
K25 series

KREDE chairs add more value to the various spaces. The design concept of K30 and K30S are going together, but it goes a separate way as per the usage. You can make brighter and more beautiful office space in the same space with various KREDE chairs.

K30S & K30 series

K30 series

collection

Create a meeting space
in various ways with K30S
The K30S series, which
has a variety of line-up,
is very suitable when
you need a chair which is
easily movable and quiet,
for example, meeting
space at school, company,
bank or library.

K30S series

K55 series is newly created by
preserving its beautiful design
and finding the best material.
The urethane foam backrest that
surrounds the whole body offers
a sensation of sitting on a soft cloud.
K55 drastically eliminated complex
features to focus more on the
basics of "sitting".
It also has designed to optimize
visual and spatial aesthetics.
Experience the newly upgraded
and comfortable K55 for yourself.
