Clean, streamlined, and easy to use

- Touch-free operation
- Coin-sized low profile design
- Multi-directional locking mechanism
- Battery-powered for easy wire-free installation
- 2-year warranty

Access Options

SHARED USE

A simple day-use solution, Shared Use functionality lets the user select any available storage space and present a valid RFID or mobile credential to lock and the same RFID or mobile credential to unlock an Orbit unit. When the current user is done and the storage space is vacated, Orbit is ready for the next user and RFID or mobile credential.

ASSIGNED USE

If you need to assign storage for a longer period of time, Assigned Use lets managers program single or multiple RFID or mobile credentials to the lock for the user(s). Each user presents the assigned RFID or mobile credential to unlock an Orbit unit. Then the auto-relock feature is activated requiring the user to simply shut the door.

MOBILE CREDENTIAL

Wireless connectivity through BLE (Bluetooth Low Energy)

RFID CREDENTIAL

13.56 MHz RFID Standards (ISO 14443A - ISO 14443B - ISO 15693) including HID™ iCLASS™, HID™ SEOS™, MIFARE Classic®, MIFARE Ultralight®, MIFARE® DESFire® EV1, MIFARE® DESFire® EV2, MIFARE Plus® S, LEGIC advant™

Safely Hidden in Plain Sight

- **Secure inside mount**
- **Wire-free installation**
- **Simple no-drill retrofit**
- **Adaptable to multiple door thicknesses**
- **Adjustable Depth Key Insert for 0.59” (15mm) to 0.75” (19mm) or Fixed Key Insert for 0.47” (12mm) door**

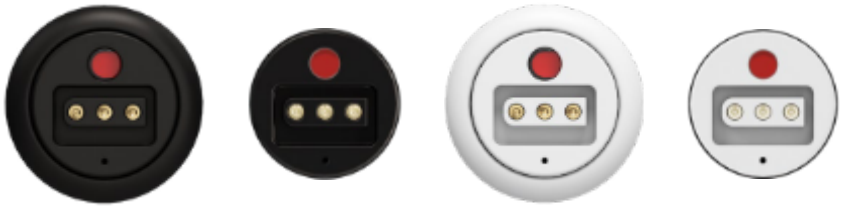

Covered by one or more of US Patent Nos. 10,697,203 & 10,711,489, and other pending and issued US and foreign patents.
