01 New Generation IQ OS Based on Android 11.0

New Generation IQ OS Based on Android 11.0

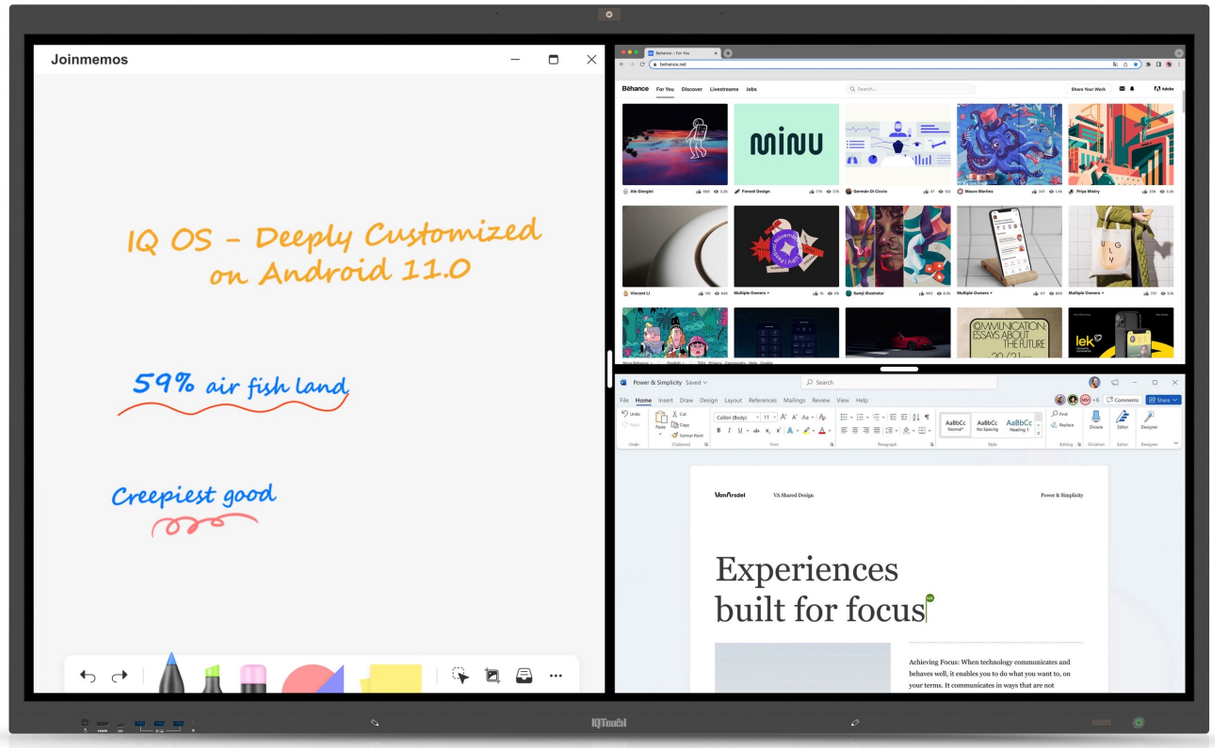

Go Faster, Go Smoother

Updated Android 11.0 version ensures extremely stable and powerful system with smoother operations.

New Generation IQ OS Based on Android 11.0

Flexible Windows for Multitasking

Free from the inconvenience of applications switching. Easily operate multiple tasks on flexible windows at the same time, increasing the utilization of a large screen, and greatly improving the productivity as well as efficiency of meetings.

User Profiles

- Users can personalize settings and backup privated data on their own accounts for personal resources access.
- Allow multiple users with individual logins and varying permissions to use the same account.

New Generation IQ OS Based on Android 11.0

Redefine Wireless Screen Sharing

● 4K* UHD Screen Mirror

Make it possible to enjoy a clearer vision and more details on the office display.

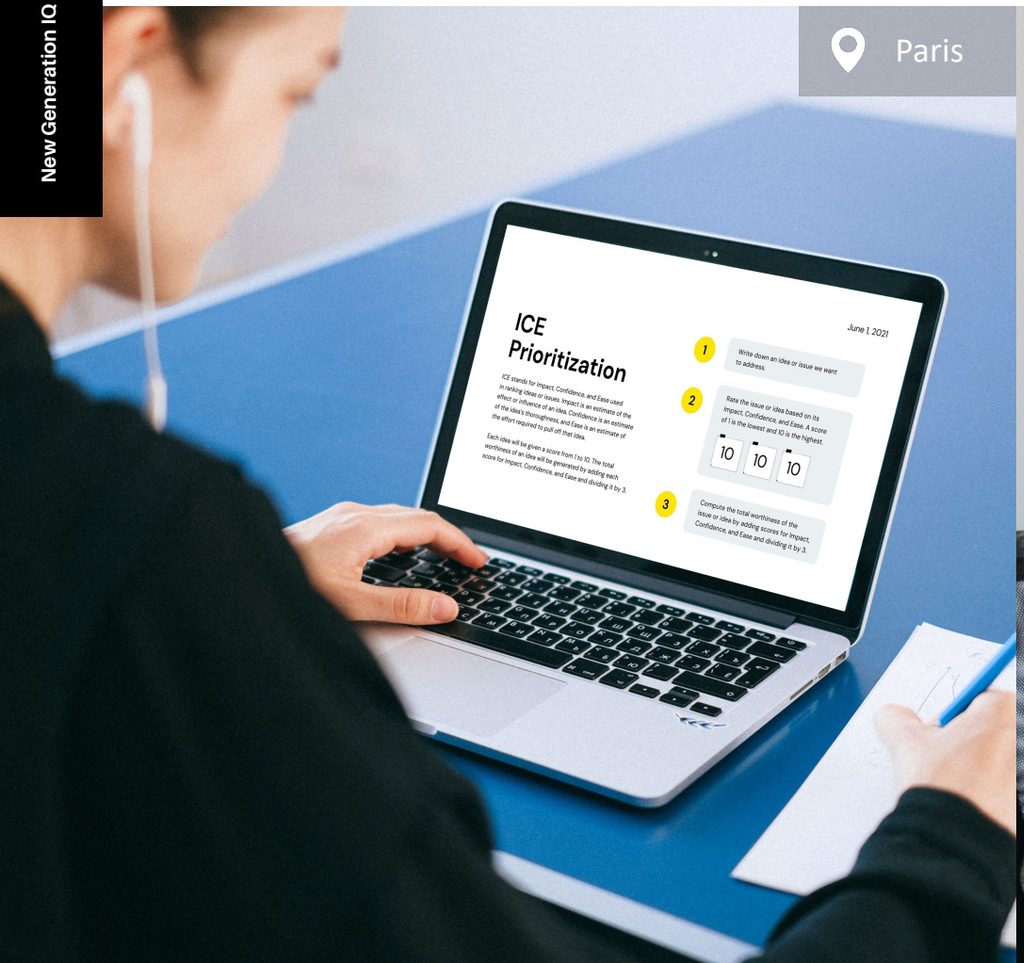

* Work with IQShare Button C3 Pro to realize 4K display of wireless screen sharing.

New Generation IQ OS Based on Android 11.0

Remote Screen Sharing in Different Spaces

Remotely share the screen content of your personal mobile device to the large screen with no requirement of the same LAN.

New Generation IQ OS Based on Android 11.0

Bring Your Own Meeting *

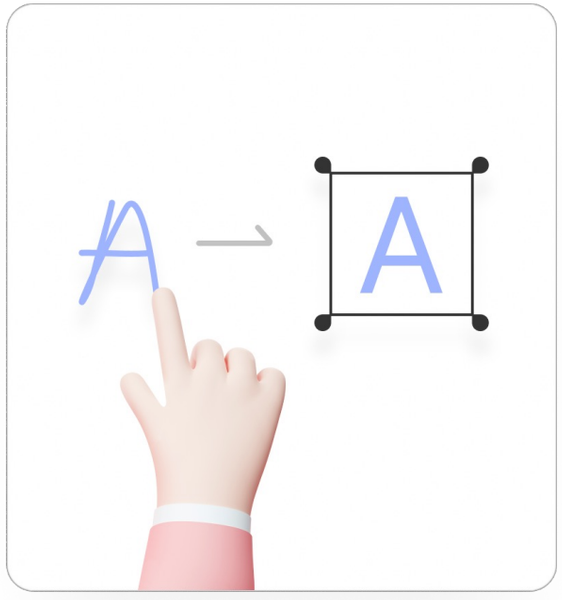

Participants can not only share their personal screens, but also use their laptops to easily access camera and microphone from large screen, which enables freely switching the different VC platforms frequently used and easily starting a video conference with higher level of audio-visual effect.

* Work with IQShare Button C3 Pro.

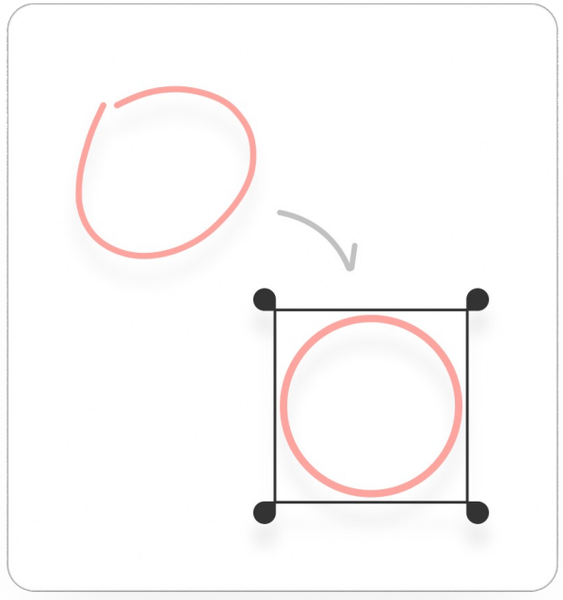

New Generation IQ OS Based on Android 11.0
