7853
FLEX with the worldwide patented Z-shaped frame

FLEX | PLASTIC SHELL

- ergonomically shaped plastic shell made of robust, recyclable polypropylene in 7 attractive colours, see material overview
- inverted sitting, saddle sitting and casual sitting are additionally supported by the design
- easy cleaning due to special surface structure
- channel for ventilation and relief of the spinal column
- grip hole in the lordosis area, grip recesses on the upper back edge and underside of the chair
- available in many different frame shapes or with base also in powder coating, the colour selection of the steel colours can be found on our material overview

Supports the toning of the muscles through its ergonomic shape and promotes variable, fatigue-free sitting, e.g. saddle sitting

FLEX seat shell with integrated ventilation ducts. The closed surface prevents soiling and thus the formation of mould inside the shell

FLOORSAFE® floor protectors protect the underground, even when tilted, Patent # 10 2010 039 292 A1

7854 FLEX C-shape with cross brace, with FLOORSAFE® floor protectors, liftable

7874.002 FLEX 4-legged with writing surface

7416.046 FLEX footrest chair with large seat shell and comfortable one-handed operation*

7854 FLEX C-shape with upholstery

7873/7876 FLEX gas-lift swivel chair

7873.002 FLEX gas-lift swivel chair with foot ring

7280 Four-legged classroom table with WOODMARK table top, Tidy Box and 2 castors optional

Easy to stack from the front also with book storage or Tidy Box

With piggyback equipment to prevent the table top from sliding down or scratching when tables are stacked

Optional with stable castors for easy movement in flexible teaching

7280 SERIES CLASSROOM TABLES

- due to the unique asymmetrical frame, the tables are stackable and can be placed side by side without joints
- sturdy, yet lightweight round tube steel frame, scratch-resistant powder-coated or chrome-plated
- available in frame size 2-7
- working surfaces with multi-layer melamine resin coating, thus scratch-resistant, shock-proof and glare-free
- as standard we deliver the table with a 3 mm plastic edge in the colour of the top, see material overview
- other possible board designs: Edge beech concealed edge band crowned, ASSODUR®-Multiplex, WOODMARK or 12 mm compact board, colour selection see material overview
- optional with 2 castors on the long side, mobile and therefore flexibly adjustable

MADE IN GERMANY

1810.168 Computer table 2-seater,
upstand at the back of the table top, optional with CPU holder
7873 FLEX gas lift swivel chair with load-dependent braked castors

1810.168 Board on slide fitting slides forward for easy,
hidden cable entry,
sealed with rubber lip

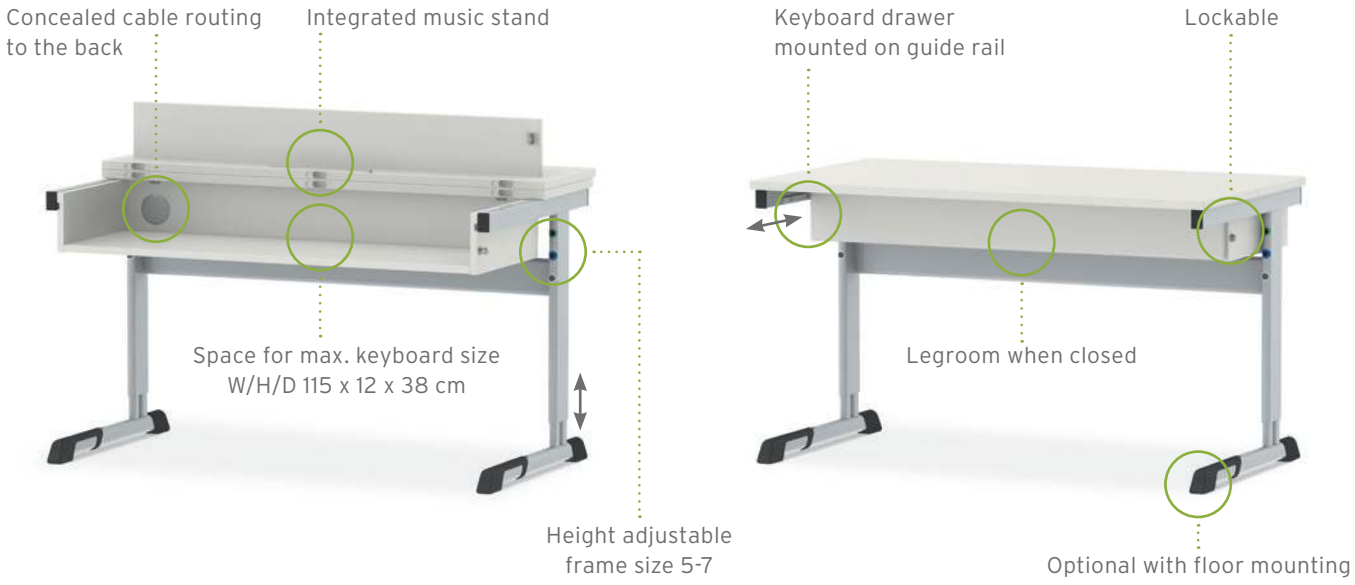

18 SERIES | COMPUTER TABLES

- absolutely stable, solid welded metal frame with scratch-resistant powder coating,
  colour selection see material overview
- 25 mm thick working surfaces with multi-layer melamine resin coating, therefore scratch-resistant, shock-proof and glare-free
- lockable board on slide fitting slides forward with lip seal at the back
- as standard, we supply the table with a 3 mm plastic edge in the colour of the table top,
  for colour selection see material overview
- with installation channel for sockets, on request without upstand at the back
- frame is prepared to accommodate various attachments (see options)
- incl. floor protectors, protect the floor and the table frame from scratches and are easy to change

7790 | KEYBOARD TABLE

- absolutely stable, sturdy welded metal frame, scratch-resistant powder-coated,
  colour selection see material overview
- simple detent by means of grid height adjustment with snap lock and safety lock by means of Allen screw
- 25 mm thick tabletops with multilayer melamine resin coating, making them scratch and impact resistant and glare-free
- we deliver the table with a 3 mm plastic edge in table top colour, colour selection see material overview
- tabletop folds up for use as a keyboard table with integrated music stand
- space for max. keyboard size W/H/D 150 x 12 x 38 cm
- tabletop lockable in folded state
- optionally with floor mounting or power channel

Continuous trigger lever
with robust 2-hand safety operation

3660.127 Side folding table

Stable board support and folding mechanism

Robust, lockable swivel castor

3660 SERIES
SIDE FOLDING TABLES

- stable and torsion-free steel frame with central crossbeam made of round tube 40 x 2 mm, powder-coated in RAL 9006 chrome silver
- mobile frame on 4 lockable castors
- working surfaces with multi-layer melamine resin coating, thus scratch-resistant, shock-proof and glare-free
- as standard we deliver the table with a 3 mm plastic edge in the colour of the top, for finish selection see material overview
- optional edges beech concealed edge band crowned or ASSODUR®, for possible colours see material overview
- from width 160 cm with extra central crossbeam (round tube 40 x 2 mm) under the table, prevents bending of the table top
- 2-hand safety operation underneath the table top as a trigger for folding down sideways and simultaneously securing the table top in vertical and horizontal position

Space-saving storage,
with the top folded up, any number of tables can be pushed together

MADE IN GERMANY

SIDE FOLDING TABLES:
The folding table on castors is particularly practical where the tables often have to be moved to the side.
The sturdy table can be quickly folded up with the 2-hand safety control and pushed together to save space.

2010 Hexagonal corner unit combined with two **2001** Rectangular tables

Side and front panels are available in various colours and designs. Ask your area manager.

2000 SERIES
DEMOUNTABLE METAL TABLE SYSTEM

- demountable, absolutely robust metal frame, scratch-resistant powder-coated or chrome-plated
- directly coated side panels made of round tube (40 x 2 mm), frames made of square tube (40 x 20 x 2 mm)
- 25 mm thick, directly coated chipboard in a particularly scratch-resistant and shock-proof design
- as standard we deliver the table with a 3 mm plastic edge in the colour of the top, for finish selection see material overview
- different table top sizes and shapes (info p. 90-91)
- rectangular table tops optional with 40 mm corner radius
- optional 10 cm height-adjustable
- many accessories, e.g. CPU holder or cable channels (info p. 99)
- plastic floor protectors with level compensation
- for your individually planned table combination, please contact your area manager
- available in two different table heights: 72 and 75 cm

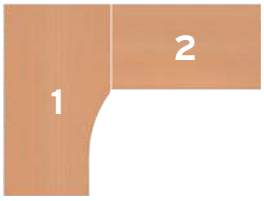

TABLE COMBINATIONS

Do you manage extensive paper documents which need to be permanently available, do you make a lot of phone calls or have frequent meetings at your workplace? offers the right solution for every work area to you – your area manager will be happy to advise you.

EXAMPLES:

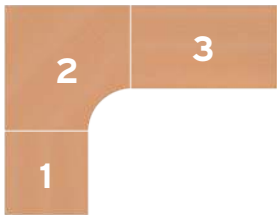

Single workstation as corner combination
for smaller rooms

Consisting of
Table 1: **2031/2er** 90° extension table
Table 2: **2001s** rectangular table

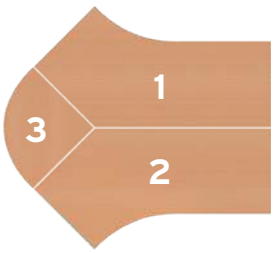

Generous individual workstation with recessed connecting
frames for more legroom

Consisting of
Table 1: **2001s** rectangular table
Table 2: **2011s** pentagonal table
Table 3: **2001s** rectangular table

Two workstations opposite each other with corner unit
as visitor's seat or additional storage

Consisting of
Table 1: **2030** 45° extension table right
Table 2: **2029** 45° extension table left
Table 3: **2016.080** rounded corner unit or
2017.080 straight corner plate

You will find further table combinations and
tabletop variants on the following pages.

INDIVIDUALLY CONFIGURED TABLES

With variable frames, different table top shapes and extensive accessories, such as table attachments or panels, we can plan your workplace to suit your individual needs. Contact your area manager.

ACCESSORIES FOR TABLE SYSTEMS

Individually extendable and linkable

EXAMPLE
This is how your table could be configured:

	CONNECTOR	CABLE HOLDER	SAFETY SOCKET	CABLE CLAMP	FIXED CASTOR
					
MODEL	**0224**	**0163**	**0185**	**3035.003**	**0179**
Description	Universal connector for frame-tables, galvanized steel	1250 mm length, vertical, silver, can be shortened if required, for office, meeting and writing tables	6-way safety socket black-grey, with 3 m supply cable	Plastic, Ø 38-40 mm	for retrofitting on transverse or longitudinal sides of the tables

	MESH CABLE CHANNEL			CABLE TRAY		
						
MODEL	**0908**	**0906**	**0907**	**0901**	**0902**	**0903**
Description	450 mm length	880 mm Length	1280 mm length	600 mm length	800 mm length	1200 mm length

	CABLE OUTLET		MULTIMEDIA SOCKET	CPU HOLDER	INLAY SHEET
					
MODEL	**0904**	**3035.002**	**0905**	**1879**	**520835**
Description	Plastic, matt chrome-plated Ø 80 mm	Die-cast zinc matt nickel-plated Ø 90 mm	220V, double USB A+C charger and cable outlet, optionally expandable with HDMI or network socket, the cable outlet function is retained when the extension is inserted	incl. additional fixing under the table top, not for sliding top tables, adjustable from 160-255 mm, max. height of CPU: 500 mm, oval and square tube, powder-coated	Inlay sheet in CPU holder for retrofitting Mini PC/Tower

Table partition with fabric cover:
Pinboard, privacy and glare protection in one

FLEXIBLE TABLE PARTITION SYSTEM

- 46 cm high partition wall, quickly mountable to the tabletop using allen key and easily retrofitted
- table partition wall system in 2 different versions:
  3-layer finish board, 25 mm (E1) with 3 mm plastic edge in board colour or
  robust softwood sandwich board as pinboard with fabric cover according to colour chart, sound-absorbing
- fastening to round steel tube, Ø 40 x 2 mm, powder-coated or chrome-plated
- suitable for 1000 and 2000 table systems from 60 to 200 cm width
- corner solutions possible
- you will find our selection of fabrics, finishes and steel colours in the material overview

OPTIONS
Chrome-plated frame
Material groups 1-2
WOOL
Magnetic

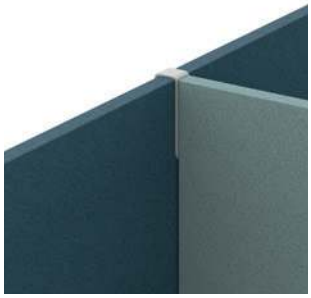

MADE IN GERMANY

Mounting by means of Allen screw on the table top; installation of the partition walls is also possible on triangular and semicircular tables. You will find the table systems from p. 88.

Coherent colour concept: The finish and fabric colours of the partition wall system match the table tops and table panels as well as the chairs' upholstery colours.

Connection of
T-shaped partition walls

The 46 cm high partition walls allow more concentrated work due to less distraction, also available with tables with one-sided or double-sided linking.

CUSTOM-MADE CABINETS

Things always have to be stored well and safely in educational institutions. Ideally, our cabinet system in the EURO grid DIN 18000 can be adapted to any situation, from a single item to a wall unit to a built-in cabinet. This means that a solution can always be found for the most diverse rooms. And you can be sure that you purchase quality from Germany, persistent and resilient.

BASIC CONSTRUCTION

- low-emission, 19 mm thick 3-layer fish board according to DIN EN 14 322 (E1), shock-proof, scratch- and abrasion resistant
- the plastic edges in board colour are 1-2 mm thick (info p. 190)
- all cabinets are firmly doweled and glued ex works; it guarantees high stability and smooth, quick assembly
- all back walls made of 8 mm thick, low-emission 3-layer finish board are grooved and glued all around
- shelves on metal shelf supports with pull-out protection are adjustable by means of row hole drilling
- the opening hinged doors can be opened by the stable, visible all-metal bands up to 240 degrees
- locks with exchangeable cylinder core are optionally available with plate or pin cylinder available
- different base variants enable an optimal adaptation to the room and use. Standard bases are available with independently selectable finish and also up to 3 FH, also roller frames with rubberised castors are possible - thus makes them mobile cabinets

CABINET SYTEM
STANDARD DIMENSIONS

POSSIBILITIES FOR INDIVIDUAL ADAPTATION

- heights and depths of the cabinets can be modified in a grid of 32
- widths can be freely selected individually to make the most of the room
- maximum corpus dimensions of 125 x 250 x 70 cm are possible
- possible base heights for wooden base: 60, 100, 150 cm
- 1-part and 2-part combination cabinets, see pages 110/111

CH = Cabinet height
CorH = Corpus height
CAH = Corpus attachment height
FH = Folder height
1 FH = 38.4 cm

Cabinet depths:
42 cm or 58 cm,
plus front thickness
of 2 cm
e.g. for hinged doors

Cabinet heights: refer to a 10 cm high base

COMBINATION CABINETS 1-PART

- 1-part combination cabinets have fixed combinations in 5 FH

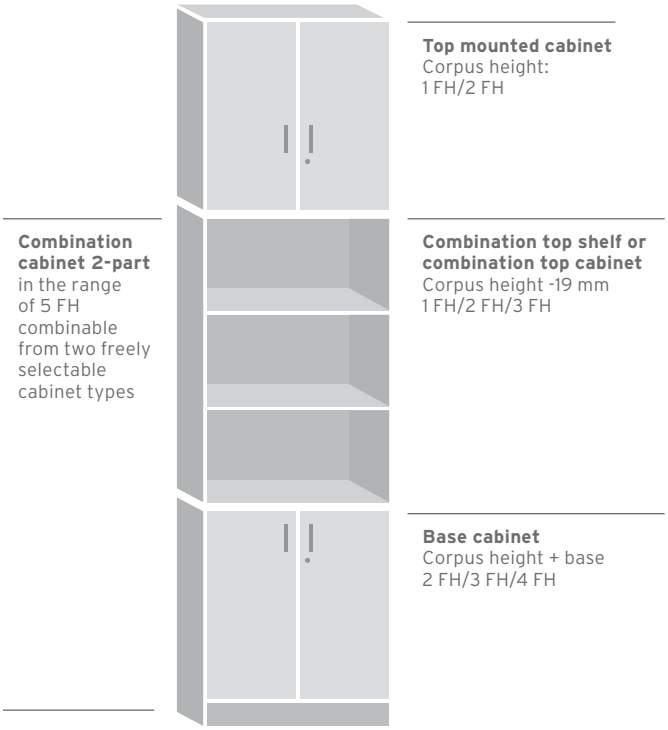

COMBINATION CABINETS 1-DOOR	LOCKABLE	
		
FH	**5**	**5**
Height	204 cm	204 cm

4440.200 Laptop cabinet

STORAGE WITH CHARGING FUNCTION

LAPTOP CABINET WOOD

- cabinet made of low-emission 3-layer finish board (E1), scratch-resistant coating, for finish selection see material overview
- easy movement of the cabinet due to 2 handles on the sides and castor frame with 4 double swivel castors, 2 of which are lockable
- lockable with safety lock
- 2 x 8-way power socket with inrush current limiter
- cable holder on the back wall on the left for winding up the power cable

LOCKER CHARGING CABINET, STEEL

- space for laptops, tablets or cell phones in separate lockable compartments
- locking with individual combination code lock
- the devices can be charged via sockets, USB-A, USB-C or SYNC
- 2 internal sockets per compartment, with integrated ventilation system

LAPTOP-/TABLET CABINET, STEEL

- easy movement of the trolley thanks to side handle
- high-quality rubber wheels with ball bearings, 2 of which are equipped with a locking brake
- separate compartment at the back of the trolley for storing power supply units and USB ports
- 32 compartments with integrated ventilation system

TABLET CASE

- the hard-shell case is robust and easy to transport thanks to its wheels and telescopic handle
- devices can be charged via USB-A ports
- ventilation openings protect the devices from overheating
- two locks with keys in the hinges ensure that the tablets are kept locked away
- charging plug and two illuminated on/off switches on the outside

Height specifications refer to a 10 cm high base.

Hallway cabinets with top mounted cabinets provide sufficient storage space; the integrated seating niche with benches and table for primary pupils creates a cosy area for short breaks or a quiet workplace for individual or group work

HALLWAY FURNITURE SYSTEM WITH SEATING NICHES

- flexible for different rooms and budgets
- in 5 FH and 2 different widths for 1 or 2 students
- top mounted cabinet in 1 FH or 2 FH with plenty of storage space
- carrier board material certified hardly flammable according to DIN 4102 B1
- finish white hardly flammable according to DIN 4102 B1
- cabinet-high handle strips, keep the escape route clear and are easy to grip from any height
- optionally all cabinets lockable
- in 3 different equipment variants
- with coat hook for jackets
- with Tidy Boxes optionally large and small
- small Tidy Boxes also fit under the tables
- pull-out stools with non-slip foot
- base distributor for levelling
- bodies with connecting screws securely interconnected
- seating niche for primary school with 2 seating benches in TAFF B1 or ARTIFICIAL LEATHER B1 and 1 table
- Seating niche high school with a bench in TAFF B1 or ARTIFICIAL LEATHER B1, optionally with button upholstery in ARTIFICIAL LEATHER B1
- finish and material colour selection see Material overview
- seating niches can also be combined with other 5 FH cabinets, e.g. in the classroom or administrative area
- for individual planning also as a corner solution or with inclined roof please also contact your area manager

HALLWAY CABINETS IN 3 EQUIPMENT VARIANTS FOR 1 OR 2 PUPILS

1 fixed and 3 adjustable shelves

Coat hooks and Tidy Boxes

Coat hook, Tidy Box and stool

MADE IN GERMANY

Hallway cabinets in 2 widths and 3 equipment variants establish order;
the seating niche with optional button pad backrest offers seating comfort
in the hallway without having to adjust the escape routes

Ensure order and provide plenty of storage space in cabinets

Available in 2 sizes and 7 colours

Possible for many table models

The practical Tidy Boxes are used in many areas – whether in the hallway or in the classroom they provide the necessary order and offer plenty of space to store writing utensils, toys or private items of students.

Can be individually personalized with name tags

TIDY BOXES

- in 2 sizes and 7 colours
- drawers made of saliva-proof plastic
- removable title block on the narrow side
- lengthwise and transversely insertable through circumferential handle strip
- fully recyclable
- optional: transparent lid

MADE IN GERMANY

Storage space for writing utensils,
Teaching and learning materials or toys

Tidy materials can be neatly stored in
the cabinet; to work, simply remove
Tidy Box and slide it under the table

Sliding door cabinet and media workstation p. 118
Property cabinet p. 127
Tables p. 48
Chairs p. 16

Whether in dressing rooms or property lockers,
personalizable name tags allow each student to
find their own Tidy Box quickly

Plenty of space for personal items, such as shoes,
as the Tidy Boxes can be cleaned easily

Hallway cabinets p. 130
Wardrobe shelves p. 129

JUNIOR UPHOLSTERY SYSTEM

The modular upholstered JUNIOR series opens up small islands for fun and games in elementary school and at the same time cozy retreats to relax and immerse yourself in your own world.

Thanks to the variety of shapes and colours, the upholstered elements fit harmoniously into any learning space – whether as a fixed part of the room design or as a movable seating element. And the numerous positioning variations allow many ideas for cozy feel-good spaces to take shape.

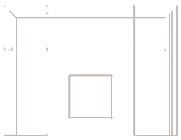

- seat height and depth of the elements suitable for elementary school
- colours of the backrest and seat can be selected separately within a fabric group
- easy-care and hard-wearing upholstery fabrics from the fabric groups FLEECE, TAFF B1, PROTEX, WOOL and PROTEX B1, see material overview for colour selection
- round legs powder-coated in black-grey RAL 7021 as standard
- optionally fire protection-certified according to DIN 66084 P-a with B1 cover fabric
- JUNIOR table, square or round – table top made of compact top in U400 pure white decor

Like a cocoon, the**COCOON series**offers protective islands of peace to relax and regenerate. Combined with our**JOYN series**, new learning experiences can be allowed to create space for games, creativity and communication. Learning close to the floor in elementary school – lying on the stomach, sitting, squatting, depending on the natural urge to move and the need to learn - alone or in a group.

sound-absorbing foam in the backrest provides an optimal barrier against noise on both sides: ideal as a retreat and rest island

5040.001 The blue cube set makes active learning easy in any construction- or play-corner

CUBE SET

The cube elements provide numerous opportunities to activate the body and give the mind a break. This allows children in elementary school and especially during the whole day to pursue their urge to move and re-center their energy.

- set consisting of 12 individual elements and storage cover offers seating for up to 21 children
- firm, stable foam with removable PROTEX cover fabric, see material overview for colour selection
- storage cover made from particularly tear-resistant CORDURA fabric
- use: For stacking, creative puzzling and sitting in construction- or play-corners or all-day rooms

Cover with velcro fastener and particularly tear-resistant Cordura fabric

6716.001 Acoustic felt partition

Easy to move and arrange thanks to recessed grips on the sides

Table divider can be dismantled for space-saving storage

Space-saving storage for different learning formats

With anthracite core colour

6716 | ACOUSTIC ELEMENTS FELT

The mobile acoustic partitions and table dividers harmonize a lively school day with a healthy learning atmosphere: They shield learning areas from each other and create pleasant acoustics in the learning space.

- stable, even with active forms of learning
- Powder-coated metal base in black-grey RAL 7021, can be dismantled
- available in 2 felt combinations light grey blend/anthracite or copper/anthracite
- 100% Recycling fleece

6718 | ACOUSTIC ELEMENTS TEXTILE

Where learners discuss, laugh and work, effective learning experiences are created. The wall elements completely reduce the noise level in the learning space and create a pleasant soundscape for lively learning.

- removable, acoustically effective fabric cover with zipper on all sides
- internally stable support panel with highly effective sound absorber
- maximum absorption capacityα_w = 1.00 according to DIN EN ISO 11654
- screwed mounting
- available in the FLEECE or WOOL fabric groups, see material overview for colour selection

ACOUSTIC PARTITIONS JUNIOR

Standing alone in the room or next to tables, they create peace and privacy.
Together with the JUNIOR upholstered elements, this also creates islands of relaxatior in the middle of the action.

- stable, even with active forms of learning
- easy to move, even for primary school children, thanks to the lightweight material
- the 1- and 2-module elements match the upholstery system perfectly
- in felt combination light grey blend/anthracite
- 100% recycling fleece
- powder-coated metal base in black-grey RAL 7021, can be dismantled
- adjusted height for elementary school

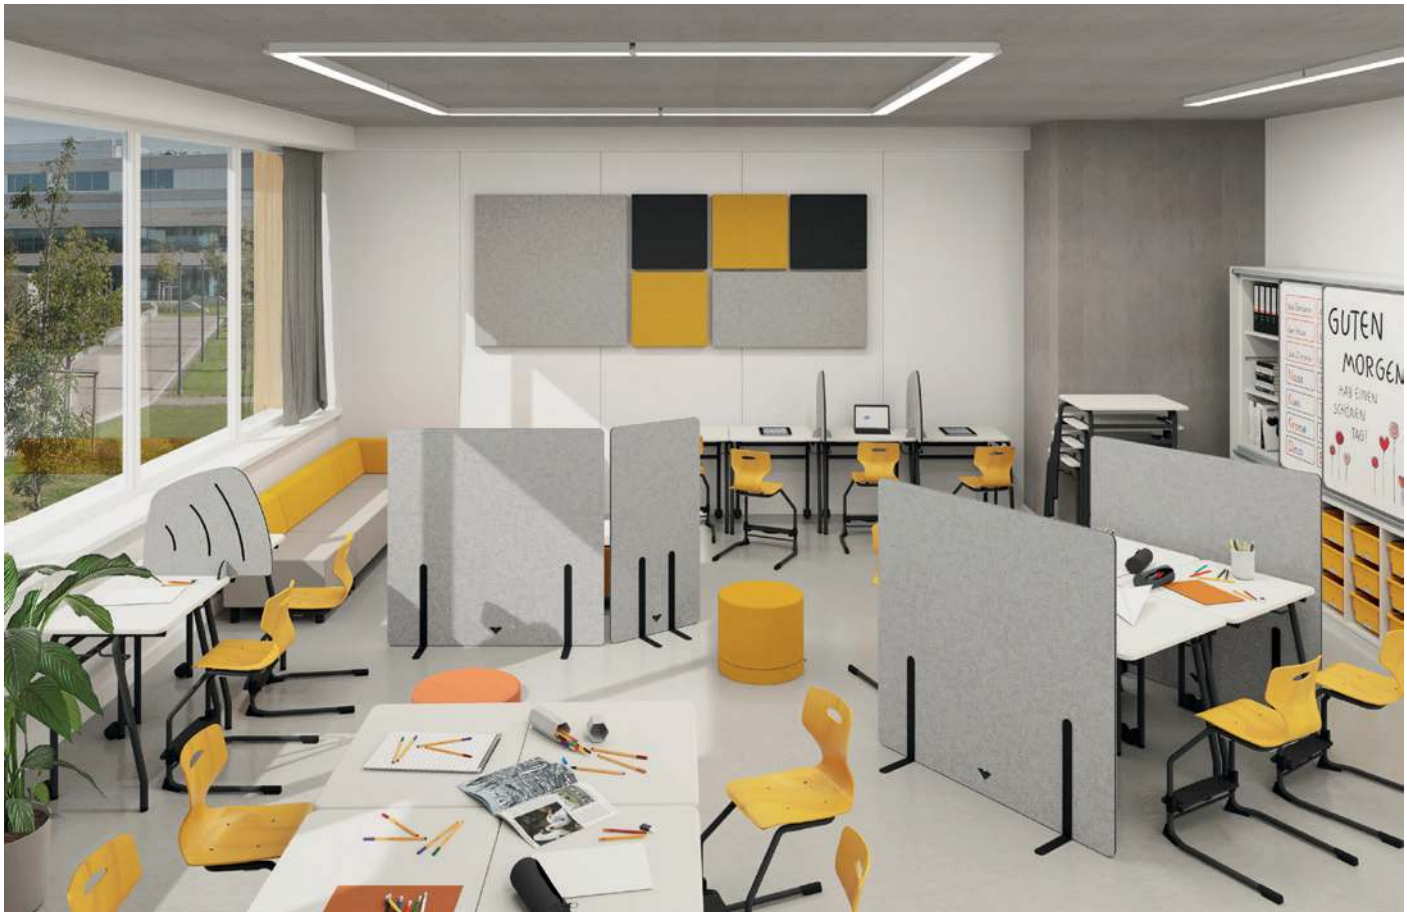

ACOUSTIC PARTITIONS JUNIOR

MODEL	**6716.101**	**6716.102**
Dimensions W/H/D in cm	60 x 120 x 2	120 x 120 x 2
Design	metal base in anthracite RAL 7021	metal base in anthracite RAL 7021

MADE IN GERMANY

The JUNIOR acoustic partitions harmonize lively primary school life with a healthy learning atmosphere:
They shield learning spaces from each other and create pleasant acoustics in the learning space.

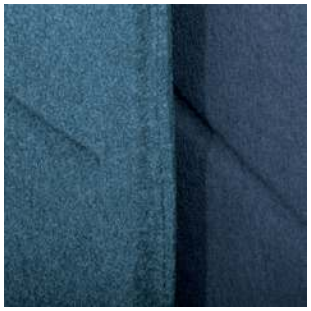

Space-saving storage for
different learning formats

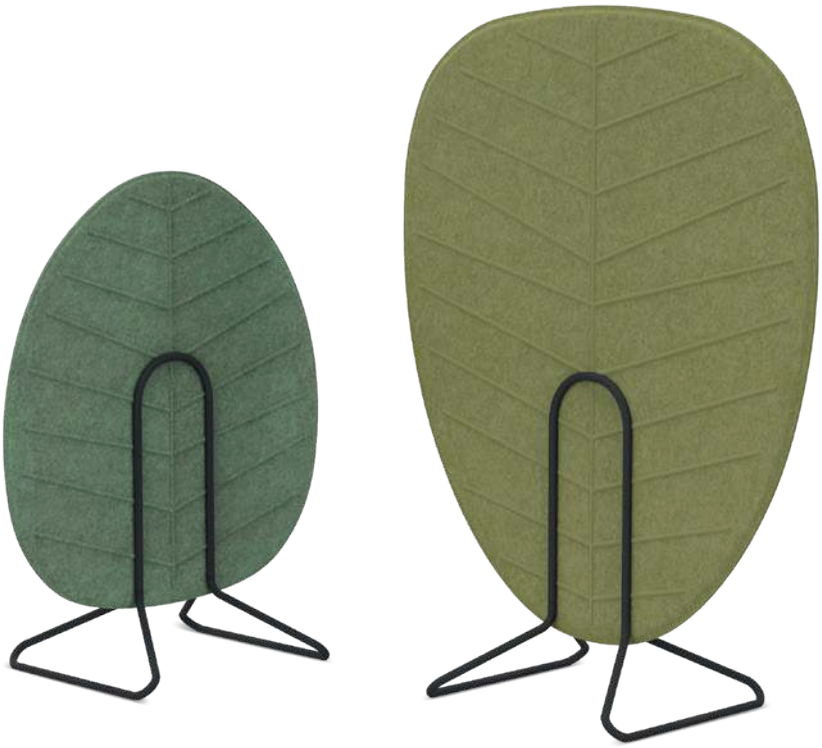

With anthracite core colour

Felt combination
light gray/anthracite

in different colour combinations available

6714.001/6714.002 Acoustic elements freestanding muffle noises, placeable in the room as required

Up to 5 pieces can be pushed into each other to save space

LEAF-SHAPED ACOUSTIC ELEMENTS

- acoustically effective fabric-coated chipboard with leaf shape
- available in the material groups FELT or WOOL, colour selection see material overview
- elements in different colours can be selected within a material group

FREESTANDING
- flexible zoning and pleasant design of rooms and relaxation areas depending on the situation
- for space-saving storage, can be pushed into each other up to max. 5 pieces

WALL-MOUNTED
- sets in two different sizes
- for wall mounting by means of a running rail per element for hanging incl. locking device

MADE IN GERMANY

6715.002/6714.001/6714.002 The wall-mounted and free-standing acoustic elements provide pleasant acoustics and their leaf shape creates a natural atmosphere, even in large meetings

6715.001 Acoustic elements wall-mounted
5-piece set

BOARDS

Multifunctional board system 176

Display 178 178 178

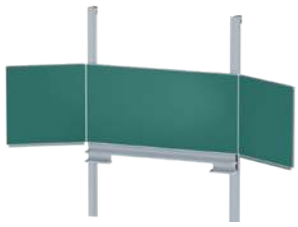

Digital boards 180 180 180

Long wall boards 182

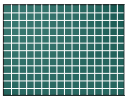

Sliding boards 183 183

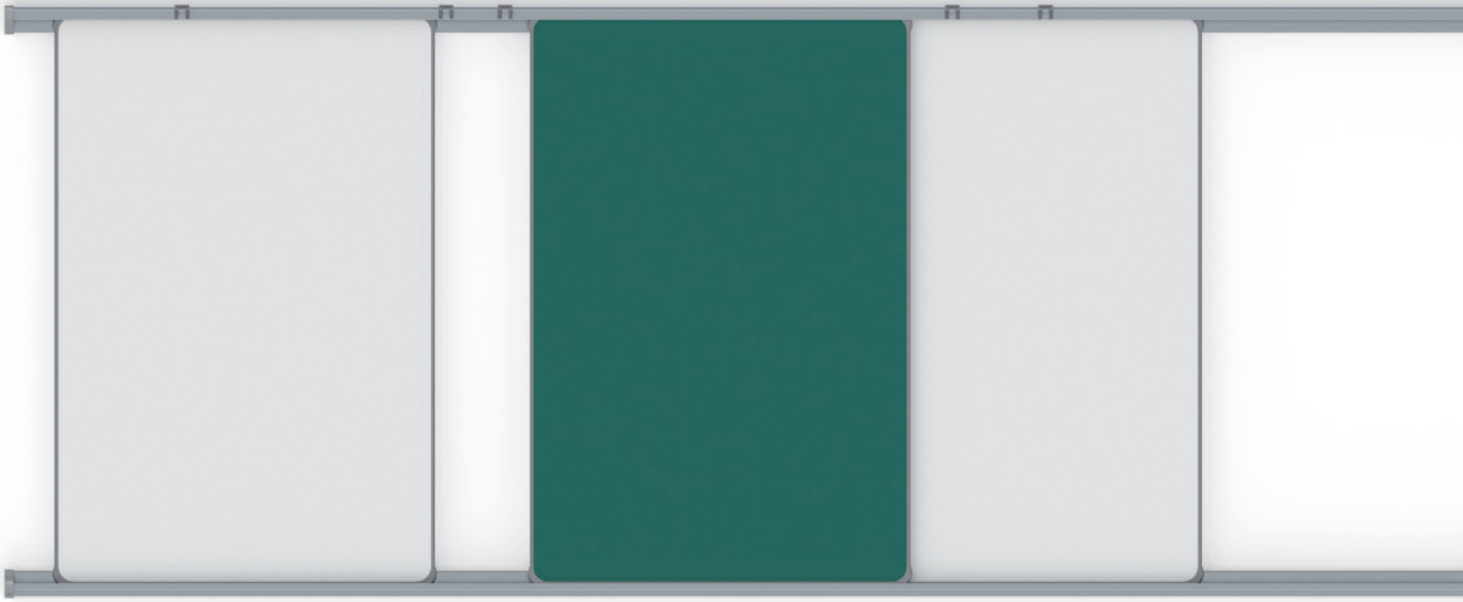

Pylon boards 184 184 184

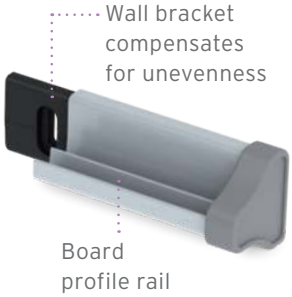

Swivel boards
Rulings
Accessories 186 187 187

White sheet steel magnetic
for whiteboard pens

Green sheet steel magnetic
for chalk

The boards can be used in
portrait and landscape format
(different rail spacing)

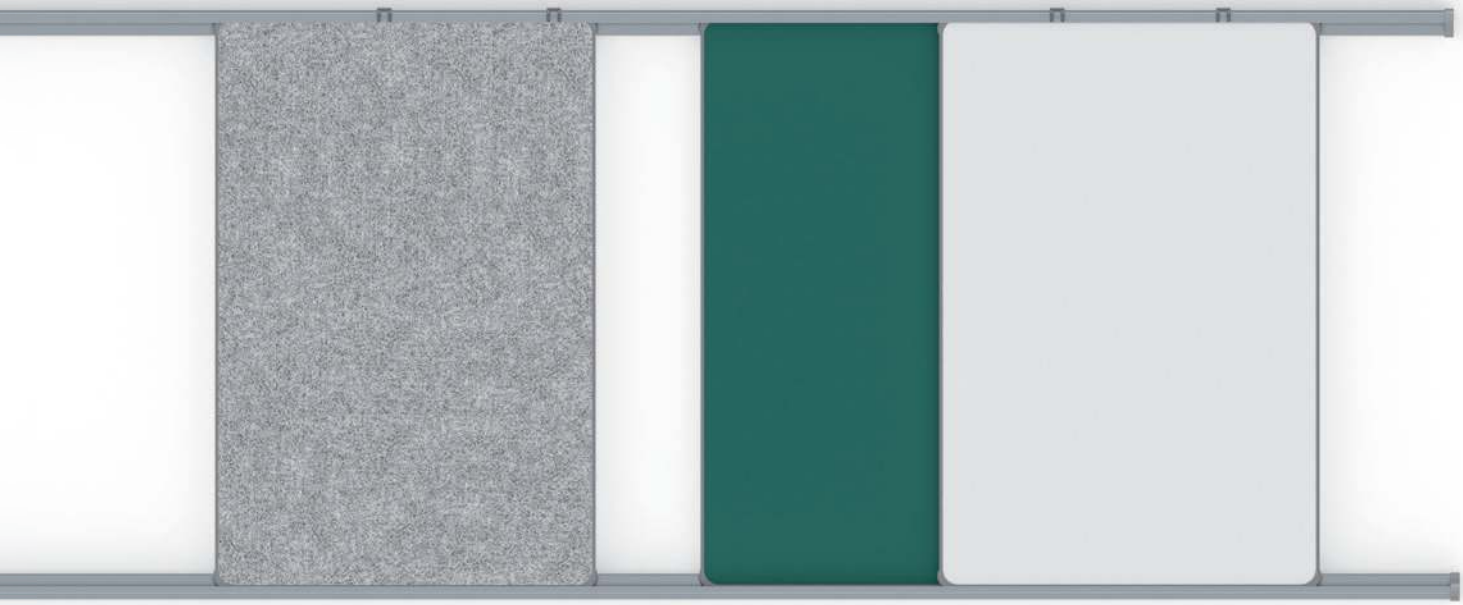

The aluminium guide
with robust plastic end caps is simply
mounted on the wall bracket

The elastic ASSODUR® Edging strip
protects the edges from impacts,
e.g. when dropping

MULTIFUNCTIONAL SLIDING BOARD SYSTEM

- the board elements are particularly light and available in the sizes 90 x 60 cm and 120 x 80 cm
- the edging of the board elements is waterproof, the corners are rounded
- the working surfaces of the board elements in sandwich construction can be equipped as required, e.g. magnetic enamelled sheet steel in green or white
- the aluminium guide is robust, the fastening is invisible, the ends of the profile are enclosed by plastic caps
- board system can also be mounted on cabinet walls, info p. 119
- pinboard, fabric covered with WOOL optionally in the colours grey melange, natural or green melange
- use of the fabric-covered sliding panel with pin needles only possible in the front position

Pinboard, fabric-covered with WOOL

The boards can be removed from the rails: ideal for group work on the site

The lightweight board elements can be easily removed from the board profile rails, but are secured against accidental ejection

Sliding picture clamps with integrated gallery hook can be used in the upper aluminium guide

Available in 3 different colours

BOARD ACCESSORIES
Audio system, response system, tablet and document camera complement the digital board system and expand the possibilities for use and learning.

Ask your field service.

Long wall board Magnetic sheet steel green
Ruling optional, see page 187

Available in 4 different surfaces

Picture clamping strip optional

Writing surface with rounded "safety corners";
profile covers firmly screwed on

LONG WALLBOARDS

- for wall mounting with and without storage strip
- due to the sandwich construction different surfaces are possible
  - enamelled, magnetic steel sheet in green or white
  - 4 mm thick cork coating
  - 6 mm thick cork linoleum coating in 4 different colours, see material overview
- the edges of the writing surfaces are glued waterproof with natural anodised aluminium profiles
- the corners are protected with rounded plastic caps

ATTENTION!
Wall mounting of long wall boards is only possible with solid walls; with lightweight walls only with load distribution frames.

FINISH BOARDS

When pupils are letting off steam, the tables at which they sit should be particularly resistant to abrasion, scratches and shocks. That's exactly why we have covered all our tabletops, which are made of chipboard with standard finishes, in several layers with a robust melamine resin coating.

This means that school furniture not only survives the rough every-day school life, it is also easy to clean and largely glare-free.

COMPACT BOARD

The compact board is a highly compressed, black colored wood fibre board. The natural material wood is gently defibered during production and further processed according to ecological aspects. The board has a very high density and is therefore, despite its slim design (thickness 12 mm), extremely robust and the edges are particularly resistant.

WOODMARK

Our tabletops are subjected to a lot of wear and tear every day. That's why we provide them with a lot for their journey through life. Special resins ensure break-proof quality of our MDF carrier boards. Under high pressure and heat we press the upper and lower cover layer of hard-wearing, melamine resin-coated finish layer with the board in a metal mould. This makes Woodmark surfaces particularly resistant to abrasion, scratches and impacts.

They are glare-free and easy to clean. Rounded edges reduce the risk of injury.

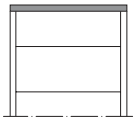

MULTIPLEX

Multiplex is, as a material made of cross-glued solid veneers, very dimensionally stable and resilient. For our table tops we coat the robust core made of solid beech multiplex on both sides with 0.8 mm thick HPL laminate, which is abrasion-, scratch- and impact-resistant. In addition it is fire-retardant, food-safe and environmentally friendly, thanks to renewable raw materials. Soft rounded edges make the table tops less susceptible to possible damage and reduce the risk of injury.

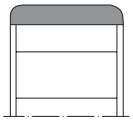

PLASTIC EDGE

The plastic edge is robust and shock-proof. As standard, these plastic edges are manufactured in a color matching the surface finish. These edges are ideally suited for table tops in administrative areas.

1 mm square edge
(corpus furniture)

3 mm edge rounded off
(front panels of corpus furniture and table tops)

SOLID WOOD EDGES

solid wood edges are firmly glued to the chipboard, have a high-quality appearance and protect the stressed furniture edges. We offer our concealed edges for the highest demands - in this case the chipboard is additionally coated on both sides with a 0.8 mm thick HPL board. This abrasion-, scratch-resistant and shock-proof HPL coating is fire-retardant, food-safe and, thanks to renewable raw materials, environmentally friendly.

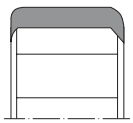

Concealed edge
band crowned

ASSODUR® EDGE

For the ASSODUR® edge , the elastic and liquid polyurethane edge is cast onto the table edge in a metal mould. Due to the strong cross-linking with the board material, it is thus particularly permanently bonded to the chipboard. The ASSODUR® edges are available in three color combinations, all free of PVC and especially abrasion- and impact-resistant.

PAGHOLZ®

Wherever furniture is subject to particularly heavy use, we rely on PAGHOLZ®, an invention from our company. For PAGHOLZ®, thin veneer layers are prepared at great expense, individually stained and soaked in synthetic resin. Only then we press them under heat with up to 2,000 tons of pressure into the desired shape.

PAGHOLZ® offers the natural appearance of solid wood and much more:

- high form stability
- high scratch and wear resistance
- shock and break resistance
- resistance to staining and abrasion
- light fastness and resistance to chemicals

For you, this means: easy cleaning and flame-resistant, self-extinguishing material that is even weatherproof with special resins on request.
You can be sure of that: We only use native red beech from tree stocks that are carefully reforested. And of course all products made of PAGHOLZ® are particularly durable and can be recycled.

Resistant to chemicals

Stain- and abrasion-resistant

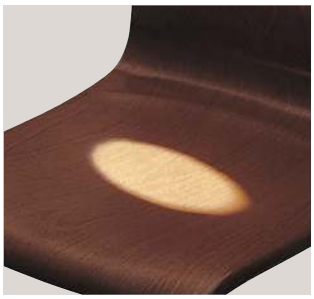

Hardly inflammable, self-extinguishing

Scratch- and wear-resistant

Shock- and break-proof

Lightfast
